Dean's Message

Dear Students and Esteemed Readers,

Near East University Faculty of Health Sciences commenced its educational journey in the 2007–2008 academic year, holding the distinction and privilege of being the first institution in Cyprus to provide education in the fields of health professions. Taking into account the requirements of continuous education as well as social and community needs, new departments have been established, offering prospective professionals with environments that foster effective training in their chosen fields. As of the 2024–25 Academic Year, our Faculty offers ten undergraduate programs in Turkish and three in English. Additionally, it provides five master's programs and three doctoral programs.

In line with the vision of Near East University, our Faculty embraces the goal of becoming "a faculty recognized internationally through its academic, educational, and scientific activities." To this end, a teaching model based on contemporary educational approaches has been adopted; interactive methods such as case analyses, projects, classroom activities, group work, and discussions are incorporated to encourage students' active participation in the learning process. Our academic staff, through their research and scientific publications, closely follow developments in their respective fields, thereby enriching the educational process.

The curricula of our undergraduate programs are designed to provide a balanced integration of theoretical knowledge and practical experience. Active Student Clubs and rich library resources support and enhance the learning experience, making it both effective and enjoyable. Opportunities for internships and employment are also offered through large hospitals and affiliated institutions.

Our distinction lies in our pursuit of making a difference!

Primarily, we strive to make a difference through the education we provide and the scientific research we conduct. Equally, we aim for our graduates to become professionals who will make a difference in their careers. It is among our core values to raise graduates who are not merely "accepted" as health professionals but are "preferred and sought after." We are engaged in a great race, and our first race is with ourselves. We do not have the luxury of repeating the previous day. We must progress step by step—toward better, more beautiful, and more successful outcomes. Ultimately, our aim is to rank among the world's best Faculties of Health Sciences. It is with great pleasure that we welcome you as a part of the Near East University Faculty of Health Sciences. We wish you a successful and productive academic year and hope that you will always stand with us to foster collective wisdom and to look toward the future together.

Prof. Dr. Adile Öniz Özgören

Dean of the Faculty of Health Sciences

About Us

The Faculty of Health Sciences (FHS) of Near East University was established in 2007. With the Departments of Nutrition and Dietetics, and Nursing, it holds the distinction and privilege of being the first school in Cyprus to provide education in the fields of health professions. The Faculty of Health Sciences began its educational journey in the 2007–2008 academic year. In addition to these initial departments, the Department of Physiotherapy and Rehabilitation (in Turkish and English) and the Department of Health Management were opened in the 2011–2012 academic year. Subsequently, the Faculty continued to expand by admitting students to well-established and newly founded departments such as Emergency Aid and Disaster Management, Occupational Therapy, Audiology (in Turkish and English), Child Development, Midwifery, Speech and Language Therapy, and Social Work. The Nursing Department was separated from the Faculty as of the 2018–2019 academic year. Alongside its undergraduate programs, the Faculty of Health Sciences also continues its educational activities with graduate programs in Nutrition and Dietetics, Physiotherapy and Rehabilitation, Health Management, Audiology, and Midwifery.

With its educational opportunities and strong academic staff, Near East University carries an international identity and has a long-standing educational tradition. Since its establishment, it has been a center of education, science, and culture. Along with world-class educational and infrastructural facilities, Near East University stands out with its competent academic staff, contributing to its international and multicultural identity. Prominent as one of the most important centers of science and culture in the Mediterranean, Near East University adopts the principle of raising individuals who are self-confident, responsible, rational, creative, innovative, research-oriented, and free-thinking.

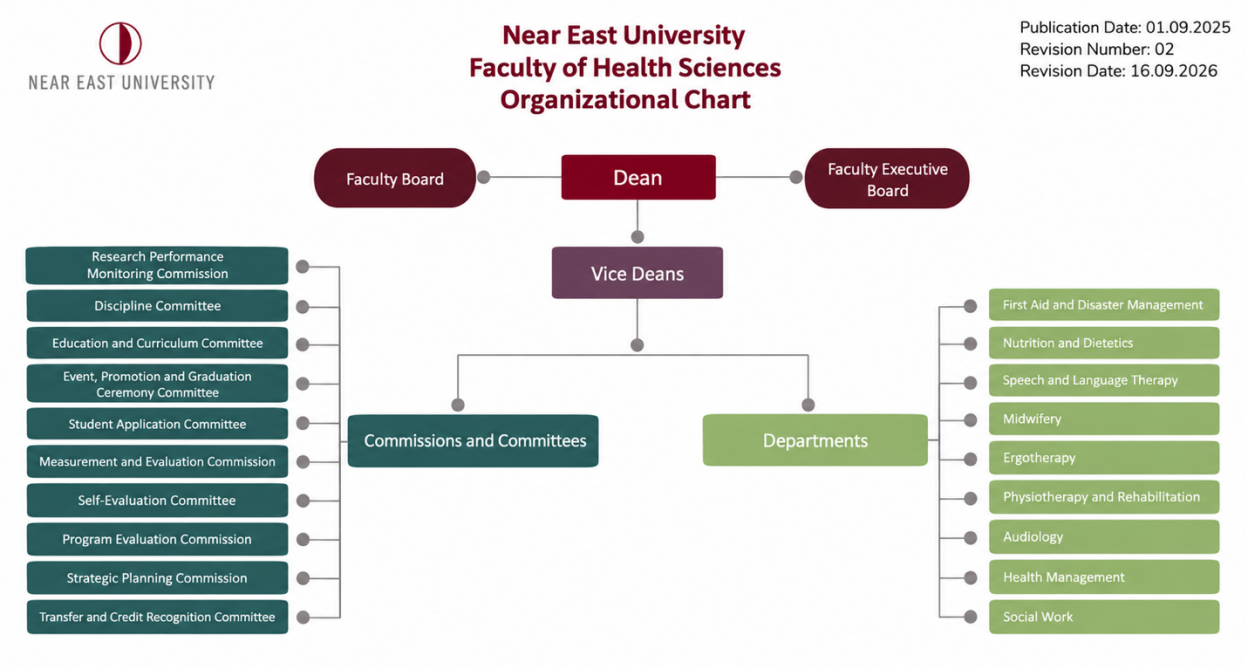

With this vision, Near East University has achieved remarkable international success. In the **Times Higher Education (THE) World University Rankings 2025**, the University was ranked in the 601–800 band, maintaining its title as *"the best university in the TRNC"*, while securing a place among the top five universities in Türkiye and among the top three foundation universities. In the **US News & World Report "Best Global Universities 2024–2025"** ranking, Near East University was placed 689th worldwide, 7th in Türkiye, and 1st in the TRNC. According to **THE Impact Rankings 2025**, which evaluates universities' contributions to the United Nations Sustainable Development Goals (SDGs), our University ranked 43rd worldwide overall; 35th in *Partnerships for the Goals*, 48th in *Good Health and Well-Being*, 13th in *Quality Education*, 15th in *Sustainable Cities and Communities*, and 57th in *Gender Equality*. In subject-based rankings, Near East University was placed in the 200–250 band for Physical Sciences, 250–300 for Computer Sciences, 300–400 for Engineering and Education, 500–600 for Social Sciences, 600–800 for Life Sciences, and 800–1000 for Medicine and Health. Particularly in Physics and Computer Sciences, it shared the title of *"the best Turkish university"* in Türkiye and the TRNC.

In the **Times Higher Education Young University Rankings 2024**, Near East University secured a strong position among young universities through its performance in teaching, research, and international outlook. The 2024 ranking results revealed the University's young, dynamic, and research-oriented structure on an international scale. Near East University was ranked 139th among universities under 50 years old, distinguishing itself as one of the leading young institutions worldwide.

In the **Shanghai Ranking's Global Ranking of Academic Subjects 2024**, Near East University also achieved remarkable success. Ranked among the world's top 400 universities in Physics, Near East University was listed among Türkiye's best universities in this field, alongside Boğaziçi University and Bilkent University. In Mathematics, it was placed in the 401–500 band, ranking among the top three universities nationwide. These achievements reflect the University's strong

research infrastructure in fundamental sciences, its distinguished academic staff, and its globally recognized publication performance.

Faculty Organization Chart

Why the Faculty of Health Sciences?

The Faculty of Health Sciences provides you, our valued students, with a high-quality educational environment through its competent and experienced academic staff, offering continuously updated programs in line with the requirements of the era.

The diverse undergraduate programs and transfer opportunities within the Faculty allow you to explore your own interests and talents, while also contributing to your access to a broad range of career opportunities at both national and international levels after graduation.

With Turkish and English as language of instruction options, the education you will receive in our Faculty prepares you for the global workforce and enhances your employment opportunities in international institutions and organizations.

Thanks to strong communication mechanisms established between our academic and administrative staff and our students, you have the opportunity to directly share all opinions, suggestions, and needs related to your educational process with your advisors and the Faculty administration.

Our Faculty not only supports your academic development but also aims to empower you socially through various social activities and student club initiatives. The Faculty administration actively encourages the entrepreneurial spirit of student clubs and contributes to the development of students' leadership skills through social responsibility projects.

Moreover, the modern infrastructure of Near East University, combined with the cultural richness of Cyprus and its peaceful campus life, provides a productive educational and living environment that supports your personal growth.

Why Physiotherapy and Rehabilitation Department?

Dear Students,

Welcome to our department. Physiotherapy and Rehabilitation is more than just a profession; it's a meaningful journey that touches people's lives and aims to improve their health and quality of life. The knowledge and skills you acquire here will find true value not only in the classroom but also in clinical practice, in the community, and in the hearts of your patients.

Throughout your education, our goal is to develop you into professionals who think critically, act on scientific data, adhere to ethical values, and are passionate about their profession. While this journey may present challenges at times, we believe that with patience, discipline, and a willingness to learn, you will reap a tremendous reward for your efforts.

Remember that every course, every case, and every experience will not only equip you with technical skills but will also instill empathy and a sense of appreciation for people. As future healthcare ambassadors, you are an important part of making a difference in people's lives.

Success is achieved not only through hard work but also through learning together. Our door is always open to your questions, ideas, and contributions that will support your development. We hope to continue on this path together, guided by science and with a love for humanity. Remember, every step you take will contribute to making the world a healthier and more hopeful place. Walk forward with confidence!

Program Information

The Department of Physiotherapy and Rehabilitation was established in 2011 within the Faculty of Health Sciences at Near East University and has begun accepting students for its undergraduate program. The department actively operates both in Turkish and English. Our department has five faculty members, one lecturer, and one research assistant. Our department has classrooms for theoretical courses and one laboratory for practical courses. The program is four years long, and the curriculum incorporates current approaches, intensive theoretical, and clinical practice. Our undergraduate program consists of a total of 240 ECTS credits, including common compulsory, required, and elective courses. In addition to fundamental medical courses, our program includes theoretical and practical courses in Physiotherapy and Rehabilitation. Our students complete an internship during the summer semesters of their second and third years and complete a clinical practice in their final year.

Degree Awarded

Students who successfully complete the program earn the title of Physiotherapist with a Bachelor of Science in Physiotherapy and Rehabilitation.

Admission Requirements

Admission to this undergraduate program is based on the university entrance exam (YKS), a program defined by the Turkish Council of Higher Education (YÖK). After students submit their academic program preferences, the Student Selection and Placement Center (ÖSYM) places them in the relevant program based on their ÖSYS scores.

International students are accepted to this undergraduate program based on their scores on international exams such as the SAT or ACT, or their high school diploma scores.

Exchange student admission is based on the terms and conditions established by bilateral agreements signed between NEU and the partner university.

Visiting students may enroll in courses in this program with the approval of the relevant academic unit. Furthermore, since the languages of instruction in the NEU Physiotherapy and Rehabilitation Department are both English and Turkish, they are required to demonstrate proficiency in both English and Turkish.

Graduation Requirements and Regulations

To graduate, students in the Physiotherapy and Rehabilitation program must have a Weighted Grade Point Average (CGPA) of at least 2.00/4.00 and have completed all program courses with a minimum letter grade of DD/S. The minimum ECTS credit required for graduation is 240.

Recognition of Prior Learning

Full-time students at Near East University may be exempt from certain courses within the framework of the Near East University Exemption and Adaptation Regulations. If the content of a course previously taken at another higher education institution is equivalent to a course offered at Near East University, the student may be exempted from that course after the course content is evaluated by the Department of Physiotherapy and Rehabilitation Transfer and Adaptation Committee and approved by the Department Board.

Program Details

The Physiotherapy and Rehabilitation Undergraduate Program aims to train professionals who can identify, prevent, and treat movement and functional disorders, and who can improve individuals' health-related quality of life. To this end, we aim to cultivate graduates equipped with the necessary knowledge, skills, and competencies in their field; individuals who are inquisitive, investigative, lifelong learners, able to effectively implement evidence-based practices, sensitive to society and ethical values, and prioritize public health. Physiotherapists who graduate from this program can pursue careers as healthcare professionals who protect the continuity and development of the profession. They are also encouraged to deepen their expertise through postgraduate academic studies, contributing to both their professional development and the sciences.

Program Learning Outcomes

- Makes the necessary evaluation, definition and planning for physiotherapy and rehabilitation practices by using theoretical and practical concepts and principles related to the field of physiotherapy and rehabilitation

- Implements the physiotherapy and rehabilitation program systematically and safely within the framework of ethical principles by using the advanced knowledge and skills acquired; terminates or changes it when necessary.
- Takes initiatives to protect public health; It contributes to the production of health policies in accordance with the changing and diversifying needs of the society in the field of physiotherapy and rehabilitation.
- Organizes physiotherapy and rehabilitation services effectively and adequately, manages the business processes necessary for the continuity and development of quality and organizational function; It produces solutions to problems in line with information and evidence.
- Carry out professional and academic studies independently by using their knowledge.
- Work as a team member in effective communication and cooperation with other professional groups working in the field of Physiotherapy and Rehabilitation and assumes responsibility.
- Keeps records and prepares reports for quality service and research in the field of physiotherapy and rehabilitation; Participates in all phases of research and project implementation.
- Conducts evidence-based scientific research and follows developments to contribute to the development of the physiotherapy profession.
- May use computers, statistics, information and communication technologies as required by their field.
- Can produce projects and take an active role in projects with the aim of evaluating, protecting and improving public health.
- To be able to collect data in the field of Physiotherapy and Rehabilitation and to communicate with colleagues in a foreign language. ("European Language Portfolio Global Scale", Level B1).
- To be able to speak a second foreign language effectively with moderate fluency 13 Recognize the necessity of lifelong learning; to be able to access information, to be aware of developments in science and technology; to be able to relate the knowledge acquired throughout human history with Physiotherapy and Rehabilitation.

Program Structure

The undergraduate program in Physiotherapy and Rehabilitation consists of a total of 46 courses and 240 ECTS credits. Excluding common compulsory and elective courses, each semester includes a minimum of five courses. The curriculum includes compulsory courses mandated by the Turkish Higher Education Council (YÖK), Higher Education Planning, Evaluation Accreditation and Coordination Council (YÖDAK) as well as other common courses determined by the University Senate.

The full four-year course schedule and the list of elective courses are provided below.

Additional Information

To graduate, students must successfully complete courses totalling 240 ECTS credits. Physiotherapy and Rehabilitation students are required to fulfil both compulsory and technical elective course requirements to meet the 240 ECTS graduation threshold. Otherwise, they will not be considered eligible for graduation.

A minimum attendance rate of 70% is mandatory in all courses across our programs. Students who fail to meet this requirement receive an NA (Never Attended) grade for the relevant course. This grade is given to those who do not satisfy the attendance condition and lose the right to participate in end-of-term evaluations. The NA grade is not included in the GPA calculation.

In future semesters, students must still fulfil the 70% attendance requirement for the same course. However, in the case of a course repeated due to an FF (Failing Grade), the 70% attendance requirement is not enforced.

Courses with codes AIT104 cannot be taken without completing AIT103, ANT122 cannot be taken without completing ANT121, PHS122 cannot be taken without completing PHS121, and ENG102 cannot be taken without completing ENG101. Courses PAR204 cannot be taken without PAR203, PAR206 cannot be taken without PAR205, PAR208 cannot be taken without PAR207, PAR210 cannot be taken without PAR209. The practical application course PAR214 cannot be taken without completing first and second-year courses with PHS and PAR codes. Courses PAR304 cannot be taken without PAR303. The practical application course PAR316 cannot be taken without completing first, second, and third-year courses with PAR codes. Internships PAR405 and PAR406 cannot be taken without completing second and third-year courses with PAR codes. While taking the internship courses PAR405 and/or PAR406, a maximum of 3 (three) courses from the first, second, and third-year can be carried over. Those who have four (4) or more courses from the previous years cannot select PAR405 and/or PAR406.

Important Notes on Elective Courses

Students in the Physiotherapy and Rehabilitation department must take a total of 28% elective courses, both related and unrelated to their field, in order to graduate.

Exam Regulations, Evaluation and Grading

At our university, student performance is generally assessed through in-person examinations, including a midterm exam and a final exam. However, in some courses, alternative assessment methods—such as project assignments, presentations, homework, quizzes, and group work—are also employed to encourage active participation and evaluate a range of skills.

The method of assessment for each course may vary depending on the nature of the course and the instructor's approach. Assessment criteria are communicated to students at the beginning of the semester and are clearly outlined in the course syllabus.

Students' course grades are calculated by taking the weighted average of the exams, assignments, and any other assessment tools used within the course. The required passing grade in the program is 50. Students are required to achieve a weighted average of the scores obtained from the assessment tools, achieving 50 out of 100 points.

The final course grade is calculated based on the weighted average of all evaluations conducted throughout the term, including exams, assignments, and any additional components. Therefore, students are expected to actively engage not only in exams but in all forms of assessment during the semester. At Near East University, students receive one of the letter grades described below for each course, based on the assessment conducted by the course instructor. Each letter grade corresponds to a specific ECTS credit weight.

NOT	HARF NOTU	KATSAYI	AKTS NOTU
90-100	AA	4.0	A
85-89	BA	3.5	B*
80-84	BB	3.0	B*
75-79	CB	2.5	C*
70-74	CC	2.0	C*
60-69	DC	1.5	D
50-59	DD	1.0	E
49-00	FF	0.0	F

To be considered successful in a course: Students in **Level 5 (Associate)** and **Level 6 (Bachelor's)** programs must receive at least a **DD.**, Students in **Level 7 (Master's)** programs must obtain at least a **CC.**, Students in **Level 8 (Doctoral)** programs must earn at least a **BB**. For non-credit courses not included in GPA calculations, students must receive an **S (Satisfactory)** grade.

In addition to local letter grades, each grade has an **ECTS equivalent**, which facilitates student mobility between institutions. The grading table above is used for all courses offered by Near East University.

Besides standard letter grades, the following special grades may also appear on student transcripts:

Grade	Meaning
I	Incomplete
S	Satisfactory
U	Unsatisfactory
P	Successful Progress
NP	Not Successful Progress
EX	Exempt
NI	Not Included
W	Withdrawal
NA	Never Attended

I (Incomplete): Assigned to students who fail to complete course requirements due to a valid reason approved by the instructor. Students must fulfil all outstanding obligations within one week after the official grade submission deadline. In exceptional cases, the deadline may be extended up to two weeks before the start of the next semester by the relevant academic board. Failure to meet the requirements within the given timeframe results in an automatic **FF** or **U** grade.

S (Satisfactory): Given to students who successfully complete non-credit courses.

U (Unsatisfactory): Given to students who fail non-credit courses.

P (Successful Progress): Assigned to students in courses with multi-semester requirements, where GPA is not calculated, and progress during the term is deemed satisfactory.

NP (Not Successful Progress): Assigned when expected progress is not achieved in multi-term courses that do not count toward GPA.

EX (Exempt): Given to students exempt from a specific course in the curriculum.

NI (Not Included): Indicates a course that is listed on the transcript but not included in the GPA calculation or official program requirements.

W (Withdrawal): Assigned when a student withdraws from a course between the 3rd and 10th week of the semester with approval from both their academic advisor and course instructor. Withdrawals are not allowed during the first two semesters. A student may withdraw from a maximum of **two courses** in associate programs and **four courses** in bachelor's programs. Courses with a prior **W** grade that did not affect the GPA cannot be withdrawn from again. The student must retake the course in the first term it is offered again.

NA (Never Attended): Given to students who fail to meet the minimum attendance requirement and lose the right to participate in final assessments. This grade is not included in the GPA.

On all student transcripts, both national letter grades and their corresponding ECTS equivalents are shown.

Graduation Requirements

To graduate from this undergraduate program, students must meet the following requirements;

Successfully complete all courses in the curriculum with at least 240 ECTS credits and a minimum grade of DD/S and have a Cumulative Grade Point Average (CGPA) of at least 2.00 out of 4.00.

Academic Calendar 2026-2027

FALL TERM	
July 1, 2026; Wednesday	Start of Internship Rotations for Faculty of Medicine Year 6
September 7, 2026; Monday	Start of Classes for Faculty of Medicine Years 4 and 5
September 7–11, 2026; Monday–Friday	Assignment of Courses to Academic Staff
September 8, 2026; Tuesday	Deadline for Initial Tuition Fee Payments (Full payment and first installment)

September 10–14, 2026; Thursday–Monday	Course Activation
September 14, 2026; Monday	Start of Classes for Faculty of Medicine Years 2 and 3
September 14, 2026; Monday	English Preparatory School, Turkish and Arabic Proficiency Exams (Undergraduate Students)
September 14–18, 2026; Monday–Friday	Course Registration
September 17, 2026; Thursday	First English Proficiency Exam of the Semester (Graduate Students)
September 18, 2026; Friday	Deadline for Graduate Thesis Jury Submission
September 21, 2026; Monday	Start of Classes (Including all Preparatory Schools)
September 28, 2026; Monday	Start of Classes for Faculty of Medicine Year 1
September 29, 2026; Tuesday	Common Courses Exemption Exams (English Programs)

October 1, 2026; Thursday	Common Courses Exemption Exams (Turkish Programs)
October 7, 2026; Wednesday	Deadline for Changing “I” (Incomplete) Grades
October 8, 2026; Thursday	Deadline for 2nd Installment (8-installment plan)
October 9, 2026; Friday	Deadline for International Student Withdrawal
October 9, 2026; Friday	Add/Drop Deadline

August 23–27, 2027; Monday–Friday	Diploma Distribution

Registration and Admission Procedures

International Student Affairs is in the Faculty of Health and Sciences building and is open from Monday to Friday, between 08:00 and 17:00. Students can obtain information about faculties, complete registration procedures, and request documents such as exam entrance certificates, student certificates, and transcripts from the International Student Affairs Office.

Course Registration

Course registration is conducted online each semester. After completing the semester tuition payment, students can register for their courses via the online system at http://ogrsis.neu.edu.tr.

To access this system, each student is provided with a student ID number and a personal password by the faculty secretary. After selecting their courses through the system, students must also obtain approval from their academic advisors via the same platform.

The registration process is also outlined on the university's official website. However, students who have not paid their tuition fees or submitted their payment receipts to the Student Affairs Office will not be able to proceed with online registration. Final approval of course registration is completed by the academic advisors of the department.

Additionally, students may complete course registration by meeting in person with their academic advisors within their departments. During the registration period, as indicated in the academic calendar, students are expected to consult with their advisors for course selection and academic guidance.

Add/Drop and Withdrawal

Each semester, specific Add/Drop and Course Withdrawal dates are determined and announced in the academic calendar. During this period, students can attend their registered courses and, if they wish, make changes by adding or dropping courses. All course withdrawal, course change, or course addition procedures must be completed within the dates specified in the academic calendar. Students must consult with their academic advisors to carry out the requested changes.

Lateral and Vertical Transfers

Students who wish to apply for a lateral or vertical transfer must apply to the Student Affairs Office. After the application is approved, the student must provide an official transcript from their previous university to the department they have been admitted to. Before the student begins their education, the Department Head/Dean and the assigned academic advisor will evaluate whether the courses previously taken are equivalent to the courses in the current program.

For students who are citizens of the Republic of Türkiye, the rules regarding transfers to Near East University can be reviewed at the following links in accordance with the Council of Higher Education (YÖK) and university regulations:

http://www.yok.gov.tr/4767

https://neu.edu.tr/wp-content/uploads/2023/05/29/YDU-Yatay-Gecis-Yonetmeligi-29.05.2023.pdf

Communication with Academic Staff

Subject	Description
Course Materials and Content	All course materials, weekly content, and announcements are shared via the **UZEBIM** platform: https://uzebim.neu.edu.tr/
Email Communication	You can contact academic staff through their **institutional email addresses**.
Face-to-Face Meetings	You can meet with academic staff during their **office hours**, which are posted on their office doors in the faculty building.
Academic Staff Information	You can contact information of academic staff are available at: https://saglikbilimleri.neu.edu.tr/akademik/akademik-personel/

Class Attendance and Excused Absences

Students are required to attend at least 70% of the total course hours for each course. If a student is unable to attend an exam, they must submit their medical report (issued by Near East University Hospital or a state hospital) within 3 working days following the exam date. Otherwise, the student will lose the right to take the make-up exam.

Students are responsible for following the make-up exam schedule through the university's announcements page or the instructor's personal page. If a student misses a previously announced make-up exam without valid excuse, they will lose the right to take that exam.

International Student Office

Near East University International Student Office provides support and counselling in the educational and social lives of foreign students studying at our university, from registration to graduation. International Student office ensure that international students who study at our university return to their countries fully equipped with good memories and that more students from these countries apply to our university.

International Student Office Working Hours:

Monday to Friday 08:00 – 17:00.

Closed on official holidays.

International Student Office Contact Information:

Director of International Student Office: Asst. Prof. Dr. Rana Serdaroğlu

Phone: 0392 223 6464

E-Mail: rana.serdaroglu@neu.edu.tr

Campus Life

Library

Located directly across from the Faculty of Economics and Administrative Sciences building, the Grand Library features over 1,000,000 open-shelf books, 150 million electronic journals, 7,000 DVDs, 17 film viewing booths, 12 individual and group study rooms, 4 lecture halls with 1,000 seats, a theatre hall with a capacity of 350, a cafeteria for 600, and 600 study desks. This makes it a world-class cultural and information-access centre. The library is open 24/7 and is free of charge. The information centre, equipped with the latest digital technologies, is accessible from anywhere via the internet. Students can also access information throughout the campus via wireless internet.

Social Activities and Student Clubs

Students can participate in various activities throughout their studies, including university-sponsored conferences and club activities that encourage social engagement. Some active clubs include the Law Club, Nature and Sports Club, Scientific Research and Health Club, Theatre Club, Photography Club, and Tango Club. For more information, visit:
https://neu.edu.tr/kampusteyasam/sosyal-ve-kulturel-kulupler/

The campus also features the country's first and only Olympic Indoor Swimming Pool, covering 2,700 m², with a height of 16 meters, dimensions of 50 x 21 meters, 3,100 tons of water capacity, central heating, 1,000 spectator seats, and diving towers at 3, 5, 7, and 10 meters. Swimming courses are offered in both summer and winter.
https://neu.edu.tr/kampusteyasam/olimpik-kapali-yuzme-havuzu/

Psychological Counselling Services

Since 1995, the university has offered free psychological counselling. The CounsellingCentre is located on the first floor of the Faculty of Law building. It operates by appointment and is open weekdays from 09:00–13:00 / 14:00–16:00.

Office of the Dean of Students

This office aims to provide an integrated university life where students and alumni feel supported in all aspects of their personal, cultural, social, and professional development. The Dean of Students offers various services and programs to support academic and personal growth, instilling a sense of confidence in students as they prepare for life beyond graduation.

Units under the Dean of Students include Student Counselling and Communication Unit, Psychological Counselling Unit, Student Activities Unit, NEUideas Unit, Career Planning Unit, Social Responsibility Projects Unit, Students with Disabilities Unit, Alumni Affairs Unit. If you require support in accessing courses due to a disability, please contact the Accessible Support Unit: engelsiz@neu.edu.tr

Student Counselling and Communication Unit

In cases where students face unexpected or uncontrollable circumstances that affect their academic responsibilities, they can submit petitions through the online system or via email for issues such as refunds, academic matters, job applications, accommodation, or financial concerns: petitions@neu.edu.tr

Sports Facilities

The university offers a wide range of modern sports facilities to promote a healthy lifestyle among students, staff, and faculty. Facilities include an Olympic swimming pool, tennis courts, football fields, gymnastics halls, and both indoor and outdoor sports complexes.

Our Olympic Indoor Swimming Pool has a 1,000-seat capacity, modern amenities, and a café. Activities such as water polo, diving, and synchronized swimming, as well as swimming lessons, are regularly held. The Sports Tower is a high-tech fitness centre for all age groups, offering classes and sessions in: Fitness, Step, Aerobics, Spinning, TRX, Kangoo Jumps, Pilates, Yoga, Boxing, Karate, Dance education, Nutrition & diet services, with special sections for children and women. RA25 Sports Hall hosts competitions in basketball, handball, volleyball, and badminton, and functions as a venue for ceremonies and concerts with its advanced sound system.

https://neu.edu.tr/wp-content/uploads/2018/12/21/spor-kule-brosur-21.12.18.pdf

Atatürk Culture and Congress Centre (AKKM)

This state-of-the-art venue hosts national and international congresses, seminars, conferences, and cultural events. It features various-sized meeting halls, modern audiovisual equipment, and spaces for art exhibitions, concerts, theatre performances, and more — enhancing campus life through arts and culture.
https://neu.edu.tr/kampuste-yasam/ataturk-kultur-ve-kongre-merkezi/

Restaurants and Cafeterias

The campus features a wide range of food and beverage outlets, including the Main Cafeteria, Faculty Cafeteria, Hospital Cafeteria, and others with a total service capacity of 4,500 people.

Across campus, there are 22 cafes and restaurants offering healthy, affordable meals, with options for vegetarians and vegans.

Some of the dining facilities include:
Cafe Hastane 1 & 2, Cafe Bigla, Cafe Dental, Cafe Ecza, Cafe Saray, Chicken House, Cafe Library, Cafe Bridge, Cafe Veterinerlik, Gusto Cafe, Cafe Sağlık, Vitamin Cafe, Cafe 535, Cafe AKKM, Book Cafe, Cafe Laundry, Hospital Restaurant, Kebap House, Pizza Pizza, The Kaffo, Bakery & Patisserie, and the 9th Floor Restaurant.

For more information:
https://neu.edu.tr/kampuste-yasam/kantin-ve-kafeteryalar/

Market & Supermarket

IKAS Supermarket

Located on our campus, IKAS Supermarket serves campus residents with a wide range of products and extended working hours to meet all their daily needs. Additionally, there is a branch of IKAS Supermarket located under Dormitory Building 1, designed to serve students' essential needs.

Working Hours:
Weekdays/Weekends: 07:30 – 22:00

IKAS Supermarket Express

IKAS Supermarket Express, located within the Near East Campus at Near East Fuel Station, is open 24/7. Discounts available to Near East Group employees are also valid at this location.

NEU Event Park Drift Area

For those seeking speed, control, and excitement, NEU Event Park Drift Area offers an unforgettable driving experience. Under the supervision of two expert instructors, you will not only learn how to drift, but also improve your safe and effective driving techniques. Tire and fuel costs are included in the training packages. Each session lasts 30 minutes.

NEU Event Park offers 4 different training packages, tailored to various expectations. There is even a special course for young car enthusiasts: children aged 6–12 can participate in a manual driving course designed especially for them. For international visitors, accelerated 3-lesson programs are available to help them quickly learn the basics of drifting. Upon successful completion of the training program, a certificate of participation is awarded to all participants (excluding tourist guests and children's courses). The drift area can also host special events such as birthday parties and concerts.

Working Hours:

- Weekdays: 16:00 – 21:00
- Weekends: 09:00 – 21:00 Flexible closing hours are available for special events or upon request.

For detailed information about packages and pricing: Phone: +90 548 821 21 24

Accessible Cinema Hall

The newly renovated "Accessible Cinema" Hall at the Faculty of Communication, Near East University, offers a modern and inclusive experience for cinema enthusiasts and event participants. Originally launched in 1997 with the support of Telsim, the hall has recently undergone a comprehensive renovation and is now more equipped and comfortable than ever.

The Accessible Cinema features 40 fixed seats, with a flexible setup that can accommodate up to 60 people when needed. It is equipped with a state-of-the-art projection system compatible with all types of computers and has a powerful sound system to ensure an enhanced audio experience.

One of the hall's most significant features is its fully accessible ramp, which provides seamless access from the outside entrance to the seating area, allowing individuals with disabilities to enjoy events without barriers In addition to film screenings, the Accessible Cinema is also physically suited for mini workshops and various events.

IKAS Patisserie & Bakery

One of the most popular spots on the Near East University campus, IKAS Patisserie & Bakery welcomes guests with a delightful atmosphere and a wide variety of delicious offerings. The venue has a total seating capacity of 40 people, including 20 indoor and 20 outdoor seats, allowing visitors to enjoy their time both inside and in the open air. In addition to meeting the university's in-house needs for cakes, pastries, savoury snacks, desserts, and ice cream, IKAS Patisserie & Bakery also serves fresh and tasty products to external guests. Soon, it plans to expand its kitchen and begin producing its own bread. For those focused on healthy living, specially made diet desserts and drinks designed for pre- and post-workout consumption will also be available.

With an extensive menu of hot and cold beverages, the patisserie caters to all tastes and also takes custom orders for birthday cakes and special celebrations. The outdoor garden area has been designed to offer enjoyment all year round — cool shaded areas in summer, and warm cozy spots with stoves in winter. Parking is available for guests, and the venue especially welcomes those seeking a peaceful breakfast experience on weekends. On Saturdays and Sundays, rich classic and English breakfast options are served until noon — a perfect way to start your day!

Opening Hours: Weekdays / Weekends: 07:00 – 01:00

Photocopy Services

Near East University offers photocopying and printing services at various locations across campus for students and staff. These service centres aim to provide fast and reliable solutions for educational and academic needs. Photocopy centres are available in faculties with high printing demands, such as the Faculty of Architecture, Faculty of Medicine, and Faculty of Education. These centres offer specialized printing services, including large-format AutoCAD printouts for architecture students. Additionally, thesis binding services are available for students preparing their theses. Along with basic services like photocopying and printing, document scanning and various binding options are also provided. A stationery shop within the Near East University Library offers services such as photocopying and thesis binding.

Cyprus Printing Global
Hospital Branch: +90 546 990 01 03
Education Palace Branch: +90 546 990 01 04
Architecture Faculty Branch: +90 546 990 01 05
Nuroğlu Stationery (Library): +90 533 866 89 36

Bank & ATM

On campus, you will find branches of Near East Bank and Türkiye İşBankası, as well as an ATM for ZiraatBankası. These banking services are conveniently located to ensure that both students and staff can easily carry out their financial transactions.

Post Office

The Post Office at Near East University provides postal services to all students and staff. It is located on campus for easy access to both send and receive mail.

Location: Ground Floor, Faculty of Economics and Administrative Sciences

Near East Fuel Station

The on-campus fuel station provides university staff with a fast and convenient way to meet their fuel needs. In addition, all Near East University employees can benefit from discounted fuel services by using the Near East Fuel Discount Card. For more information about Near East Fuel Station, please visit the official website: https://yakindoguakaryakit.com/

Useful Phone Numbers

For more details about telephone contacts at Near East University and to find the phone numbers for specific departments or services, please visit the university's official website: https://neu.edu.tr/telefon-rehberi/

Campus Traffic Rules and Safety

Near East University's campus is subject to specific traffic rules to ensure the **safety and comfort** of students, staff, and visitors. These rules are **monitored 24/7** by NEU personnel, and **penalties may be applied** in case of violations. A full understanding and application of these rules contribute to creating a safer and more orderly campus environment.

Traffic Flow and Right of Way: Traffic on the NEU campus flows in the left lane. Therefore, drivers must keep left and follow the right-of-way rules to ensure smooth traffic movement.

Pedestrian and Bicycle Priority Campus: Please give priority to pedestrians and cyclists in crosswalks and designated bike lanes. Slow down and proceed with caution in these areas to ensure safety.

Speed Limit: The maximum speed limit on campus is 40 km/h. Adhering to this limit significantly reduces the risk of accidents and enhances overall safety.

Horn and Loud Music: Using car horns and playing loud music is prohibited on campus. Following this rule helps maintain a peaceful environment for everyone.

Traffic Signs and Directions: Traffic signs and directional markers are placed throughout the campus to support safe and orderly traffic flow. Please always follow these signs.

Routes and Parking Areas: Use designated driving routes and park only in designated areas in accordance with the campus parking regulations. This ensures safety and avoids traffic disruption.

Monitoring and Security: Traffic rules are regularly monitored by security personnel. Please follow their instructions and do not hesitate to ask for help if needed. Adhering to safety measures ensures a smooth and respectful traffic environment for all.By respecting these rules, we can collectively contribute to a safer and more peaceful campus.

Transportation Services

Near East University provides its staff with comfortable and free transportation options, ensuring easy access to both the campus and surrounding areas. The university's transportation services cover routes that are scheduled according to class and work hours. Free university buses departing from the campus and heading to various regions and the city centre offer a wide transportation network. This service aims to reduce vehicle usage and promote environmentally

friendly shared transport. Free transportation services are a significant support in facilitating the daily lives of staff.

Campus–Nicosia and Nicosia–Campus Routes: Shuttle services between the campus and Nicosia operate from 06:45 AM to 10:15 PM. These reciprocal services allow our staff to travel comfortably and safely between the campus and Nicosia. The routes cover a wide area. Detailed information about transportation services and routes is available on the university's website: https://bus.neu.edu.tr/

Intercity Free Shuttle Services: Near East University offers free shuttle services for staff commuting from regions such as Kyrenia (Girne), Famagusta (Mağusa), and Güzelyurt. These services are organized to ensure staff can reach the campus comfortably.

In-Campus Shuttles: Within the campus, there is a free shuttle service between the residential area and faculties or other administrative units. These shuttles facilitate quick and easy access across campus.

Walking Distance Accessibility: The Near East University campus is designed to allow safe walking access to most places. Classrooms, the library, the dining hall, and other key facilities are located within short walking distances. The campus design promotes physical activity and minimizes the need for motor vehicles. Additionally, the university provides alternative eco-friendly transport options such as bicycles and electric scooters for staff use.

By offering these transportation options, Near East University enables its staff to easily access campus events and resources. It supports its personnel in maintaining a productive work-life balance through a safe and extensive transportation network across its large campus area.
